

tain that the trunk his man took up there... He decided he would go to bed and wait until morning to decide.

Police Raid Man Lee's Place. As the night wore on, Cummins became restless, and finally went to the West Forty-seventh Street Police Station and relieved his mind to Capt. Post.

It was not long after that when detectives arrived, in weakness here, at one of the laundry's windows, and no one answered their knocks. The police broke the door in and scoured up some bundles which they thought might contain some of the missing garments of Elizabeth.

After the detectives had finished looking over the Chinese laundry, they returned to begin his day's work. What also found two detectives waiting for him. When he was brought to the station, he was given no information that helped any, the detectives took off the padlock and allowed him to go.

Police Headquarters the police maintained the utmost secrecy as to what had happened. It was not until the next morning that some expressman would even tell Cummins's name had given a trunk for transportation. It would all come out in time, but this was not the time, said the inspector.

Three men who called at the West Forty-seventh Street Police Station met with the same sphinxlike silence. The boss of the laundry was a Chinese expressman. It was all a great mystery. A reporter for The Times, after a hunt for the expressman, Arthur Logan, who had admitted that he had taken a trunk for transportation, was told that the trunk was in the business of carting.

The Chinaman gave his address at the chop suey house. The trunk taken up there as soon as you can do it. I'm in a hurry, the boss told. The Chinaman gave him the address of the laundry at 370 West 126th Street as the desired place to go to take it, and that the Chinaman at the other end would pay for it. The boss said he was in the business of carting.

Inspector McCafferty received various telegrams yesterday of supposed captures of Leon Ling in different parts of the country, but investigation proved that the police had, in every instance, caught the wrong man. The Chinaman riding in a trolley car in Boston was arrested, but he decided to be taken to the police station for examination.

A report that a Chinaman thought to be Leon Ling had been arrested in Juarez, Mex., and another was gathered in at El Cajon, Cal.

NEW AIRSHIP EXHIBITED. Inventor an Engineer and He Predicts Great Things for the Machine.

A model of a new airship which contains novel features was exhibited yesterday at the office of the Autolyte Manufacturing Company, 26 Warren Street.

The machine is the invention of Bruno von Buzingslowen, a civil engineer, who has been in America several years and devoted considerable attention to the problem of aerial flight.

The model is built at one-sixth of the actual size. The engine and operator's seat form a part of the chassis, resting on a frame supported by four small automobile wheels.

SUGAR PROSECUTION WON'T BE ABANDONED. Temporary Delay Due to Legal Technicalities Raised by Sugar Trust Counsel.

INDICTMENTS NEAR AT HAND. Immunity and the Statute of Limitations Pleaded as a Reason for Ending Inquiry.

There were developments yesterday in the Federal investigation of the Sugar Trust's \$1,250,000 fine on Adolph Segal, which became the basis of the plan to put the Pennsylvania Sugar Refining Company out of business as a competitor, disclosing the reason why the indictments that have been due for some days were not reported on Monday by the Federal Grand Jury.

It appears that the counsel for the trust and for John E. Parsons and Gustav Kissel, two individuals who were concerned in the sugar case, have managed to delay the indictments by pleading immunity and the statute of limitations.

CLEANED OUT IN AN HOUR. Dentist's Office Stripped by "Afternoon Burglars"—Bronx Sleuths Puzzled.

A burglar, said to be one of several carried off by a gang of "afternoon burglars"—so named for the hours in which they operate—is perplexing the Bronx detectives. Incidentally Dr. Julian Harris, a dentist, who has been living at 1399 Third Avenue, the Bronx, has lost \$1,000 worth of jewelry, surgical instruments, and personal effects, and for the smooth thief who made away with them.

Dr. Harris sent his family out of town for the Summer two weeks ago, and made his office on the second floor of the Union Avenue building. Thursday he left his room for an hour at noon. When he returned he found his door jammed closed against him from within by a chair wedged under the knob. Forcing the door, he found every drawer and closet filled with his contents.

Taking an inventory, he found that the burglars had left only the room. How they managed to get in, he guesses the Bronx sleuths, for there is no way of escape from the windows, and the main door is closed by a heavy iron door, which is known to have been under close observation while Dr. Harris was out. Moreover, Dr. Harris sent his family out of town for the Summer two weeks ago, and made his office on the second floor of the Union Avenue building.

Dr. Harris has offered a liberal reward and immunity to whomever will return his goods or the pawn tickets therefor.

WOULD BAR "FAKE" AUCTIONS. Fifth Avenue Association Also Wants Omnibus Rule Modified.

A campaign against the holding of "fake" auctions on Fifth Avenue was decided on yesterday at a meeting of the Fifth Avenue Association, an organization interested in the welfare of that thoroughfare, held at the Hotel Lorraine, 107th Street, at 10 o'clock.

The matter came up when Robert Grier Cooke, the President of the association, after a long and interesting discussion, proposed that the association should take action to prevent "fake" auctions from invading the avenue, and also, if possible, to prevent the sale of "fake" licenses for business there, except for such places as are conducted under the supervision of the State.

Other matters considered included the recent decision of the courts prohibiting the sale of "fake" licenses for business there, except for such places as are conducted under the supervision of the State.

Wanted—A Good Advertising Man With a Good Advertising Account. An advertising agency just about to start into business would like to interest a good advertising man to join its forces and bring along a good newspaper or magazine account.

This is purely an opportunity to make a better arrangement than the man now has in regard to salary or commission. No partnership is offered at the present time—the future always offers a free field to ability.

If we were to suggest where this man is to be found we would say he would be—

A good man acting as advertising manager for some institution which could be convinced that losing their advertising manager to a good, live advertising agency would increase the efficiency of their own advertising and still put the man in the way of a future he would find impossible in their business. (Geo. Dyer's case is a good illustration.)

Address Box A U 21, New York Times.

THE THOS. J. STEWART CO. 57 B'way & 46th St., N. Y. Phone 776 B'way. STORAGE WAREHOUSE & MOVING YARD. Write or telephone for interesting booklet.

Arnold Massage Vibrator. Gives new Life, Strength and Vigor to your whole body. 424 Fifth Avenue, Cor. 38th Street.

Special to The New York Times. ST. LOUIS, Mo., June 29.—Circuit Attorney George M. Egan has a requisition for Broughton Brandenburg, indicted by the Grand Jury here on a charge of embezzling \$200,000 from the Trust Co. of New York, and the Circuit Attorney's office had assurance from Gov. Hughes that the requisition would be honored in the event of Brandenburg's acquittal in New York on the larceny charge. Brandenburg, the Circuit Attorney said, was arrested in St. Louis at once and speedily tried.

Brandenburg's signature produced, the Judge charged that the jury must give the opinion of the experts such weight as their experience and capacity seemed to warrant.

"You must remember that Brandenburg is not charged with forgery," he said, "but with representing as genuine an article which in fact was not. But the genuineness of the signature is important as affecting the general proposition of the genuineness of the article."
